trategic committee, whose duties generally will be to keep the Navy up to a high standard of efficiency in preparation for war, to arrange plans for the defence in time of war, and to give advice to the Government when hostilities are in progress as to methods of strategy to be employed by the Navy. The order provides that the general staff shall consist of six ex officio members and three other members, all naval officers. The ex outcomembers are to be the Admirai of the Navy, who will be president, the Chief of the Burcau of Navigation, the Chief of the Burcau of Navigation, the Chief intelligence Officer of the Navy and his principal assistant, and the President of the Navigation.

of them from the list of rear admirals. Under the terms of the order, the general staff must meet in Washington once a month, and twice a year the sessions must last for at least a week. It will be kept fully informed as to the state of foreign naval establishments, the progress in naval matters abroad, plans to be carried out in the event of war with certain foreign na-tions, and all information that would be of value to the Government in a foreign conflict. In addition, the general staff is expected to advise the Secretary of the Navy in regard to matters pertaining to our own naval establishment, but to what extent has not been defined. It is not to supersede the Board on Construction but some subjects considered by that board will probably also be discussed and re-

ported on by the general staff. "The order is the result of several years of study by Captain Taylor," said Secretary Long last evening, "and he will be a member of the board. He has been entime, weekly or monthly. We are in no hurry for the money. You will find that our credit prices are as low as equal qualities can be bought for ANYWHERE. Commissioners by the Superintendent of deceased is survived by a widow, Mary E. Hyde-Hood, and one son, James F. Hood, Dr. Hood had a very eventful career. He was born at Fairview, Ohio, March 19, 1829, and here his early boyhood was passed. He had but little opportunity to attend school. He was employed in a store owned by a relative until he reached the age of eighteen, when he entered the pre-paratory department of the Ohio Wesleyan

Owing to the necessity of attending to ome matters of business for his father, he was forced to leave the school and subseof medicine at Gratiot, Ohlo, where he was married to his first wife. After her leach, he moved to Columbus, where later

he married Mary Hyde.

During the civil war he served as an assistant surgeon of the Seventy-sixth Ohio Volunteers, and after resigning on account of poor health, in 1862, re-enlisted and served until mustered out, in 1865. He resumed the practice of medicine in Newark, Ohio, but came to this city in 1867 to assist in the collaboration of war records of the provost marshal general's

office. He returned to private life in 1885 ofter eleven years' service as medical ref-tree of the Pension Office. During his long residence in the city, Dr. Hood was professor in the medical department of Howard University, vestryman of St. Andrew's parish, trustee of the Indus-trial Home School, chaplain of the District

of Columbia Commandery, Military Order of the Loyal Legion, and director of the Ohio National Bank. In respect to the memory of the de-ceased, the medical department of Howard University adjourned yesterday until Mon-

#### SOCIAL AND PERSONAL

Many Guests Braved the Storm to The social interest of yesterday after-

noon was centred in the ten given by Miss Gale, from 4 to 7 o'clock, in honor of her house guest, Mrs. Tilling, of Baltimore. The beautiful residence of the hostess in K Street was pas fragrant as a rose garmiral Dewey and Other Officers of den with flowers, pink and white that caught the eye at every artistic point. The first glimpse gained by the guests as they entered from the snowy outside world was mass of pink and white tulips banked against the oak paneled walls of the lower hall. The three other members are to be officers of the grade of commander or higher, one of whom will be Capt. Henry C. Taylor, commanding the receiving ship Vermout at the New York Navy Yard. The two others have not been selected, but Secretary Long was thinking of taking one of them from the list of rear admirals.

The Secretary of the Interior and Mrs. Hitchcock were again the dispensers of gracious hospitality last night, when their dinner guests were Senator and Mrs. Mr. Millan, the Japanese Minister, General and Mrs. Brooke, General and Mrs. Wilson, Mr. and Mrs. Foster, Commissioner and Mrs. William A. The Catherine Bir-ney Chapter is one of four active auxilaries connected with the hospital, and is composed of a large number of ladies long and well known in this city in social and philanthropic circles, who have given many successful entertainments.

Mrs. Willis L. Moore, wife of the chief of the Weather Bureau, has invitations of for a luncheon on Saturday, March 17.

Former Gov. John Lee Carroll, of Mary-land, who has been spending the winter in Washington, will leave for Europe during the Spring. He will go first to Rome, to visit his daughters, the Countess de Ker-golay and the Baroness Le Grange, and thence proceed to Paris.

#### CHARITY FUNDS LACKING

since last fall, he was able to walk about the house each day, and at times he asked to be allowed to resume his work.

the District of Columnia recently, through its secretary, sent to the Superintendent of Charities a statement of the estimated No definite arrangements for the funeral | deficiency in the appropriation for the use Charities, with the request that the umount asked for by the board be favor-ably considered.

The estimates of Secretary Manu, of the

board, call for the sum of \$8,859.16, as the actual amount required to carry on the work of the present fiscal year. In order to meet all exigencies which may arise the board asks for \$9,200.

"In view of a possible excess in ex-penditures over the minimum estimate," says the report, "and the inconvenience that would result to the board, to its conmedicine at Gratiat Obto when he closely figured estimates in advance of the medicine at Gratiat Obto when he closely figured estimates in advance of the closely figured estimates. made to the reputation of the board for economy in administration and to the facthat it has, whenever practicable, returned unexpended balances to the Treasury, and for these reasons it is urged that the board be treated liberally.

H. W. Lewis, Superintendent of Chari ties, in transmitting the estimates to the Commissioners, and in recommending their favorable consideration, says that the deficiency in the revenues is due. In part, to the operation of the law by which the board was created, but chiefly to the growth of the work of the board in diections heretofore wholly neglected. One notable instance of this, he says, is to be found in the establishment and main-tenance of the Hart farm school for col-ored boys excluded from all other institutions in the District.

THE ORDWAY CLAIM.

Attorney Buyall's Opinion on the Legal Questions Involved.

N. G. Ordway, executor of the estate of George L. Ordway, recently applied to the District Commissioners for a settlement relative to the auction sale of a building and materials connected with the Washington Market Company. The application states that in 1886, when the District au-thorities took possession of the property in front of the market house for public purposes, that the building and materials in question were sold at public auction for \$422.59. This amount, it is alleged, was raised by clients of the late Colonel Ordway, and permission obtained by him to remove the building to the wholesale grounds.

It appears that an arrangement v tered into at that time by which the Dis-trict was to receive half the rental for the pullding and those who placed the build-ing on the new site were to receive the ing on other half.

The executor now comes forward with a request to the Commissioners that they shall assent to an equitable adjustment of the amounts collected and received for the ise of the building and grounds under their direction, and allow the building to be removed to a private lot, as it originally cost the owners, with the expense of moving and improvement at various times,

A SURE CURE FOR CROUP.

Twenty-Five Years' Constant Use Without a Failure.

The first indication of croup is hourseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hourseness is a peculiar rough cough. It the approach of an action. To sowing this hearseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hears, or even after the croupy cough appears, it will after the ctudy cloud appears, it will prevent the attack. It is used in many thousand of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record twenty-five years' constant use without a failure. For sale by Henry Evans, wholesale and retail, and all druggists.
